

# **CALFED Science Program 2004 PSP**

**Purpose:** Invest in projects that develop new knowledge about how water use and management activities interact with and affect key aquatic species and environmental processes across spatial and temporal scales throughout CALFED program elements

# Recent changes in the Science Program budget

Changed amount of Prop 50 funding for the PSP from \$18-20 million to \$6 million

Located an additional \$4.7 million from other sources for the PSP

Using the remaining \$12 million for years 2006 and 2007 to address issues as they arise

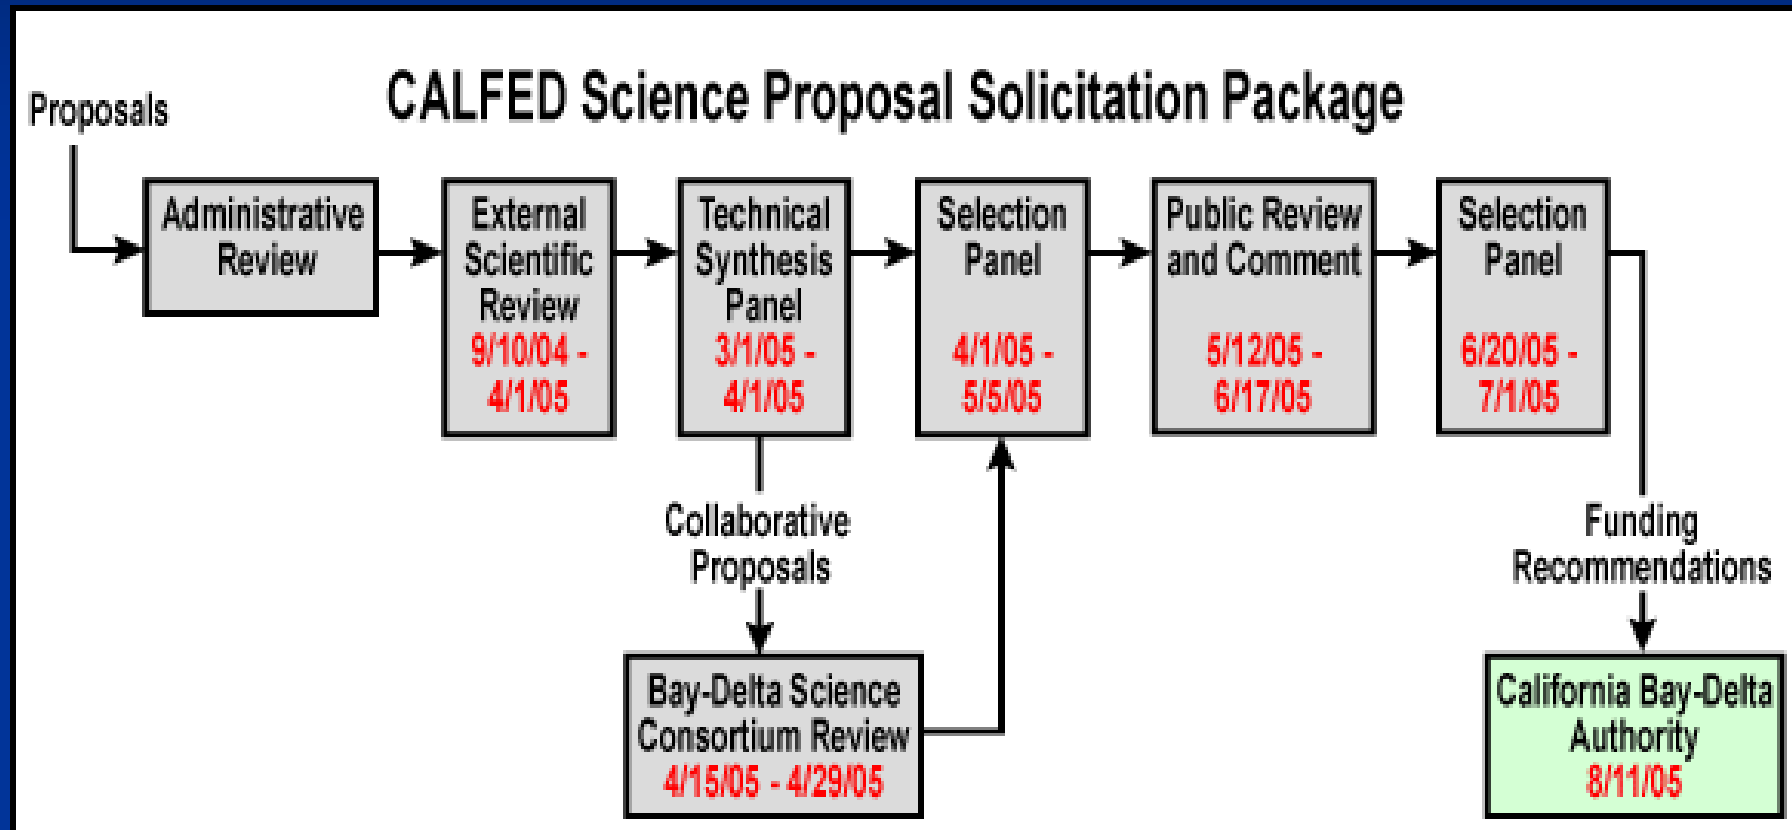

# PSP Selection Panel Recommendations

13 Proposals totaling \$10.7 million be funded now  
with existing funds

## Funding sources:

- Prop 50: \$6.0 million
- Prop 204: \$3.1 million
- Prop 13: \$1.0 million
- Federal: \$0.6 million

# Proposal review process and schedule

# Selection Panel member affiliations

- Department of Fish and Game
- Department of Water Resources
- US Environmental Protection Agency
- Ecosystem Restoration Program
- Metropolitan Water District of Southern CA
- National Oceanic and Atmospheric Association
- CALFED Science Program
- US Bureau of Reclamation
- US Fish and Wildlife Service
- US Geological Survey
- Academic scientists closely familiar with CALFED issues and priorities

# Will we invest in the future?
